

The volunteering service at Hussaini Blood Bank was a wonderful experience. It allowed us to learn many things and also made our generation aware of the blood diseases like hemophilia and thalassaemia so that we can stop its growing rate. Personally this volunteer service encouraged me a lot towards my goal. It brought confidence and courage that we can do something to serve humanity like day one i didn't had enough courage to hold a blood bag, the next day I was distributing

them to thalassaemial patients.

I think this kind of youth volunteer programs should be held regularly on vacations so that we the youth get a chance to serve our community and give ourselves internal happiness and to discover our hidden potentials also..I am thankful to the Hussaini foundation for providing us an opportunity to grow and learn and to utilize our vacations in a useful manner and to serve our community.

Thanking You Hussaini foundation. Thanking you Sajda aunty for giving me a chance to participate in it. May ALLAH bless you and the pillars of

Hussaini foundation. May ALLAH and 14 MASOOMEENS(A.S) increase your taufeqaat and bless you with the bounties and blessings of the upcoming holy month of Mah-e-Ramadhan. AMEEN. Live long Hussaini

Foundation!! Hoping to hear from you for the next volunteer service....
